(Section 68).

ABSTRACT OF CHINESE AGRICULTURAL LABOUR LAW.

1. A verbal agreement is deemed to be for one month and to be renewed from month to month until it is determined by either party giving a month's notice or paying to the other party a month's wages.

2. A written contract is invalid unless it is made before a Magistrate or the Protector or other duly authorised person, or unless, if made outside the State, it is endorsed by a Magistrate or the Protector.

3. No written contract can be for more than three hundred and sixty days' work or "Kung" (工) or for a longer period of time than twelve months, if made in the Colony or Federated Malay States, nor for a longer period than two years, or for more than seven hundred and twenty days' work if made elsewhere.

4. No time during which a labourer is in prison or absent without leave counts towards completion of contract and the labourer must work off such days.

But under no other circumstances can a labourer be detained under one and the same written contract for a longer period than two years in the case of a contract made in the Colony or the Federated Malay States: nor for a longer period than three years in the case of a contract made elsewhere.

5. An employer cannot dismiss a labourer under written contract nor transfer him to another employer unless such labourer express his willingness before a Magistrate or the Protector.

LABOUR (CHINESE AGRICULTURAL).

6. An employer may himself arrest a labourer and take him before a Magistrate to complain against him.

7. If a labourer absconds, his employer may himself arrest him anywhere if he is in a public place and take him before a Magistrate.

If he is in another employer's house or service the employer may himself arrest him without warrant if he has a photograph of such labourer, endorsed by a Magistrate or the Protector, or if the other employer consents to his being arrested. If such other employer refuses to arrest the labourer the employer demanding the arrest of the absconded labourer may insist on the other employer arresting him and taking him before the Court. If the other employer refuses to do this he may be fined a sum not exceeding \$100 by the Magistrate. An absconding labourer can always be arrested without warrant by his employer if he takes a Police Officer with him to effect such arrest.

A Magistrate may order a labourer to pay any sum not exceeding \$10 to his employer for the cost of his arrest.

8. Every employer who neglects or omits to fulfil an agreement or contract is liable to a fine of \$50 or, in default, to three months' simple imprisonment.

Every labourer on a written contract who neglects or omits to carry out his contract, or who refuses to work, or who absconds, is liable to a fine of \$50, or to six months' imprisonment, or to both, and for a subsequent similar offence to twelve months' imprisonment. Every labourer on a verbal agreement who refuses to work, disobeys orders, or damages the property of his employer, is liable to a fine of \$10, or to imprisonment not exceeding six weeks for a first offence, and for a second or subsequent similar offence to a fine not exceeding \$25 or, in default, to imprisonment for a term not exceeding three months.

9. If any labourer is absent from work through idleness or sickness due to immorality or misconduct he gets no wages for the period of such absence.

All contract labourers who work by the day or month are entitled to have two holidays a month and this is to be on the first and fifteenth of each Chinese moon. They are also entitled to holidays on customary festivals without deduction from wages.

All contract labourers who have agreed to do so many days' work or "Kung" (工) are entitled to stop work on the first and fifteenth of every Chinese moon, and on the chief Chinese festivals, provided that the total number of days of their absence shall not exceed five days in any one month.

Such labourers are not to be credited with wages on such days.

10. All labourers under any form of written contract are entitled to food and medical attendance from their employers free while absent from work owing to sickness.

Labourers on verbal agreements are not entitled to food and medical attendance from their employers.

No. 19 OF 1904.

Every employer is bound to send any of his labourers falling ill to the nearest Government hospital under penalty of a fine of \$100.

11. Every employer is bound to take any labourer wishing to make a complaint before a Magistrate, under penalty of a fine of \$100.

If the Court finds the complaint of the labourer to be frivolous the labourer may be fined up to \$10 and this fine may be given to the employer as compensation.

12. The Protector, or a Magistrate, may order employers who provide houses for their coolies, to improve them if unhealthy, and the employer is liable to a fine of \$200 for non-compliance.

13. If the house accommodation is unhealthy, insufficient, or unsafe for the labourers the Protector or Magistrate may forbid the employer to put labourers in such buildings.

14. The Protector or a Magistrate may order an employer who provides house accommodation for his labourers to provide wholesome water for them, or to improve existing sources, under penalty of a fine of \$200.

15. No employer shall prosecute a labourer for absconding, idleness, or refusal to work, if the wages of such labourer have become overdue to him under the terms of his agreement or contract, or under the provisions of the law, and the employer shall have refused to pay the same on demand.

16. If a labourer has received advances outside the State in consideration of an engagement to work in the State, and did not before entering the State sign a contract acknowledging such advances, he must sign such a contract within six weeks of his arrival in the State.

17. The Protector, any Magistrate, or any officer authorised in writing by a Magistrate, may enter upon any estate in which labourers are employed.

18. If the Protector or any Magistrate of the First Class is satisfied that a labourer has been ill-used by his employer he may cancel his contract.

19. No employer need pay wages to a labourer for any period of imprisonment undergone by him or for any time spent by him in travelling to or from prison or to or from a Court about a case in which he is convicted.

20. If any labourer is convicted of an offence and is imprisoned, the employer may apply to the officer of the prison to have such labourer returned to him on expiration of his sentence and can send a person to receive him, or have such labourer returned by a police escort (at the employer's expense) to the place where he is employed. No fine or imprisonment terminates the verbal agreement or written contract of a labourer.

21. Under no circumstances may an employer make one labourer liable for the offences or debts of another labourer.

ABSENT :

The Acting Secretary to Resident, W. G. MAXWELL, Esq.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Datoh Muda, ABDUL WAHAB.

The Council assembles at 11 a.m.

An Enactment to declare who are the next of kin of Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, deceased, and as such entitled to share in the distribution of his estate, is read to the Council by the Resident. His Highness the Sultan explains at length to the Council the objects and reasons of the Enactment, which has been drafted at his request after consultation with the Resident and the Administrators of the estate. The Council expresses its sense of the propriety of the measure, and the Enactment is passed, becoming No. 18 of 1904.

2. On the motion of His Highness the Sultan the Council decides that it shall be a direction to the Administrators of the above-mentioned estate that sums not exceeding \$400 each shall be paid out of the proceeds of the estate to six "waris," and that sums not exceeding \$2,000 each shall be paid to the three divorced wives of the deceased Datoh—these persons not being included in the Schedule to the above-mentioned Enactment.

3. It is further decided that it shall be a direction to the Administrators that no order relating to the disposition of any portion of the estate of the said Datoh shall be valid and effectual unless made with the authority and under the hands of the three Administrators conjointly.

4. It is further resolved that it shall be an instruction to the Administrators to obtain an expert valuation of each portion of the landed property forming part of the estate, and to acquaint the persons named in

the schedule to the above-mentioned Enactment with the result of such valuation in order that each of them may have the option of taking their shares, or parts of them, in property or in cash.

5. An Enactment to repeal and re-enact with certain amendments the Labour (Chinese Agricultural) Enactment No. 13 of 1904, is explained by the Resident and passed, becoming No. 19 of 1904.

6. The Council takes into consideration the case of Kaligai Perumal, convicted of culpable homicide amounting to murder, and sentenced to death by the Court of the Senior Magistrate, the sentence having been confirmed by the Acting Judicial Commissioner.

The notes of evidence are read to the Council in extenso by the Resident together with a recommendation to mercy recorded by the assessors and a petition received from the wife of the prisoner.

The Council is unanimously of opinion that the sentence of death should be commuted, and it is accordingly decided that there be substituted for it a sentence of imprisonment for the term of the prisoner's natural life.

7. At the request of His Highness the Sultan, after consultation with the Raja Muda and the Resident, and with the unanimous acquiescence of the Council, the following changes in the appointments of certain Penghulus are substituted for certain arrangements agreed to at the previous meeting:—

(i). Muhammad Yatin, Penghulu of Chigar Galah, to remain in his present post.

(ii). Haji Abdul Rahman, Assistant Penghulu, Gopeng, salary \$420, to be Penghulu, Bagan Datoh, salary \$291.

(iii). Muhammad Noh, Penghulu, Bagan Datoh, salary \$291, to be Assistant Penghulu, Gopeng, salary \$420.

(iv). Raja Abdul Majid, Clerk in the Treasury, Batu Gajah, to be Penghulu, Assam Kumbang, *vice* Raja Hamza, retired.

(v). Haji Tahir, son of the late Panglima Prang Kiri, to be Assistant Penghulu, Tanjong Malim, on six months' probation.

8. The Council records a recommendation that Yup Ibrahim bin Muhammad Zin be appointed Clerk in the Treasury, Batu Gajah, *vice* Raja Abdul Majid.

9. An application from Mahmud bin Mahomed Taip to convert into mining land about $2\frac{1}{2}$ acres of agricultural land situated in the mukim of Ulu Kinta, is approved at a premium of \$20 an acre, the right of conversion to be exercised within six months from July 1st, 1904.

10. An application from Mr. A. R. Adams, of Penang, to convert into mining land 125 acres of agricultural land in the mukim of Slim is considered. This land forms part of a concession given many years ago to a Mr. Smith, and as it appears to have been a term of such concession that so much of the land as might thereafter be required for mining should be utilised for such purpose without further charge, the formal approval of the Council to the alienation for mining purposes of the area comprised in this application, without premium, is recorded.

The Council adjourns *sine die*.

No. 234.—THE STRAITS SETTLEMENTS FUGITIVE OFFENDERS ORDER, 1904.—

AT THE COURT AT BUCKINGHAM PALACE,
THE 15TH DAY OF JULY, 1904.

PRESENT :

THE KING'S MOST EXCELLENT MAJESTY.

Lord President
Lord Privy Seal
Earl of Kintore

Mr. Charles Booth
Colonel W. S. Kenyon-Slaney
Mr. J. Parker Smith

Whereas by Orders in Council dated respectively the 19th day of August, 1889, and the 26th day of September, 1901, provision has been made for the surrender by the Governor of the Straits Settlements to Foreign States, in the case of which the Extradition Act, 1870, does not apply, of persons accused or convicted of the commission of certain crimes and offences within the jurisdiction of such States.

And whereas the Extradition Act, 1870, does not apply in the case of the Malay States of Perak, Selangor, Pahang and Negri Sembilan (hereinafter called the Federated Malay States) and the surrender of persons accused or convicted of the commission of crimes in the said States is regulated by the said Orders in Council.

And whereas it is expedient to revoke the said Orders in Council so far as they apply to the Federated Malay States, and to make other provisions for the return from the Straits Settlements of persons accused or convicted of offences in the said States.

Now therefore, it is hereby ordered by His Majesty, by and with the advice of His Privy Council, as follows :—

1. Where in any place in the Federated Malay States a warrant has been issued for the apprehension of a person accused of an offence punishable by law in the Federated Malay States, and such person is or is suspected of being in or on the way to the Colony of the Straits Settlements, a Police Magistrate in the Colony, if satisfied that the warrant was issued by a person having lawful authority to issue the same, may endorse such warrant in manner provided by this Order, and the warrant so endorsed shall be a sufficient authority to apprehend within the Colony, the person named in the warrant, and bring him before a Police Court in the Colony.

2. The Court before whom a person so apprehended is brought, if satisfied that the warrant was issued by a person having lawful authority to issue the same, and satisfied on oath that the prisoner is the person named or otherwise described in the warrant, may order such prisoner to be returned to the State in which the warrant was issued, and for that

purpose to be delivered into the custody of the person to whom the warrant is addressed, or any one or more of them, and to be held in custody and to be conveyed by sea or otherwise into the State in which the warrant was issued, there to be dealt with according to law. Such order for return may be made by warrant under the hand of the Court making it, and may be executed according to the tenor thereof. A Police Magistrate shall so far as is requisite for the exercise of the powers of this section have the same powers, including the power to remand and admit to bail a prisoner, as he has in the case of a person apprehended under a warrant issued by him.

3. Where a person required to give evidence on behalf of the prosecutor or defendant on a charge of an offence punishable by law in the Federated Malay States is or is suspected of being in or on his way to the Colony of the Straits Settlements, and a Judge, Magistrate, or other officer in the Federated Malay States, who would have lawful authority to issue a summons requiring the attendance of such witness, if such witness were within his jurisdiction, has issued a summons for the attendance of such witness, a Magistrate in the Colony, if satisfied that the summons was issued by a Judge, Magistrate, or officer having lawful authority as aforesaid, may endorse the summons with his name, and the witness on service of the summons, and on payment or tender of a reasonable amount for his expenses shall obey the summons, and in default shall be liable to be tried and punished in the Colony, and shall be liable to the punishment imposed by law for the failure of a witness to obey such a summons.

The expression summons in this clause includes any subpoena or other process for requiring the attendance of a witness.

4. A Police Magistrate in the Colony of the Straits Settlements, before the endorsement of a warrant for the apprehension of any person in pursuance of this Order, may issue a provisional warrant for the apprehension of that person on such information and under such circumstances as would in his opinion justify the issue of a warrant if the offence of which such person is accused were an offence punishable by the law of the Colony, and had been committed within his jurisdiction, and such warrant may be executed within the Colony. Provided that a person arrested under such provisional warrant shall be discharged unless the original warrant is produced and endorsed within such reasonable time as may under the circumstances seem requisite.

5. If a prisoner in the Colony whose return is authorised in pursuance of this Order, is not conveyed out of the Colony within one month after the date of the warrant ordering his return, a Police Court or the Supreme Court upon application by or on behalf of the prisoner and upon proof that reasonable notice of the intention to make such application has been given to the person holding the warrant and to the Chief Police Officer of the Settlement in which the prisoner is in custody, may, unless sufficient cause is shown to the Court to the contrary, order such prisoner to be discharged out of custody.

An order, or refusal to make an order of discharge under this clause by a Police Court shall be subject to appeal to the Supreme Court.

6. When a prisoner accused of an offence is returned in pursuance of the law in force in any of the Federated Malay States to the Colony, and is not prosecuted for such offence in the Colony or is acquitted of such offence, the Governor of the Straits Settlements, if he thinks fit, may on the requisition of such person cause him to be sent back free of cost and with as little delay as possible to the State in or on the way to which he was apprehended.

7. When the return of a prisoner is sought or ordered under this Order and it is made to appear to a Police Court or to the Supreme Court that by reason of the trivial nature of the case it would having regard to the distance, to the facilities of communication, and to all the circumstances of the case, be unjust or oppressive or too severe a punishment to return the prisoner either at all or until the expiration of a certain period, the Court may discharge the prisoner either absolutely or on bail, or order that he shall not be returned until after the expiration of the period named in the Order, or may make such order in the premises as to the Court seems just.

Any order or refusal to make an order of discharge under this clause by a Police Court shall be subject to an appeal to the Supreme Court.

8. Whenever it appears to the Governor of the Straits Settlements in Council that provision is made by the law of the States of Perak or Negri Sembilan, respectively, for conceding like powers to the Police Courts and Police Officers of the Colony with respect to the arrest in either of the said States of persons accused of offences committed and to recovery of goods alleged to have been stolen in the Colony it shall be lawful for him to make all or any of the following orders:—

- (I.) That it shall be lawful for any Police Officer of the State of Perak to execute without endorsement within Province Wellesley or within the Territory of the Dindings the lawful warrant of any Magistrate of the State of Perak for the apprehension of any person accused or convicted of a criminal offence committed or for the recovery of any goods alleged to have been stolen within the State of Perak, in like manner as such warrant might be executed within the State of Perak.

Provided always that such warrant be executed within one week from the issue thereof. (And that it shall be lawful for any such Police Officer upon fresh pursuit to arrest without warrant any person so accused or convicted as aforesaid at any place within Province Wellesley or the Territory of the Dindings within seven miles from the boundary of the State of Perak in like manner as he might have arrested such person in the State of Perak, and to bring him before a Magistrate having jurisdiction in the State of Perak to be dealt with according to law).

- (II.) That it shall be lawful for any Police Officer of the State of Negri Sembilan to execute without endorsement within the Settlement of Malacca the lawful warrant of any Magistrate of the State of Negri Sembilan for the apprehension of any person accused or convicted of a criminal offence committed or for the recovery of any goods alleged to have been stolen within the State of the Negri Sembilan in like manner as such warrant might be executed within the State of Negri Sembilan.

Provided always that such warrant be executed within one week from the issue thereof. (And that it shall be lawful for any such Police Officer upon fresh pursuit to arrest without warrant any person so accused or convicted as aforesaid at any place within the Settlement of Malacca within seven miles from the boundary of the State of Negri Sembilan in like manner as he might have arrested such person in the State of Negri Sembilan and to bring

him before a Magistrate having jurisdiction in the State of Negri Sembilan to be dealt with according to law).

(III.) That when a person is accused of an offence committed on or within the distance of five hundred yards from the boundary between the Colony and the State of Perak or the State of Negri Sembilan such person may be apprehended, tried and punished in the Colony.

(IV.) That when a person is accused of a crime alleged to have been committed in the State of Perak or the State of Negri Sembilan on any person or in respect of any property in or upon any carriage, cart, vehicle, or vessel employed on a journey between the Colony and the State of Perak or the State of Negri Sembilan, such person may be apprehended, tried and punished in the Colony.

9. Where this Order provides for the place of trial of a person accused of an offence, that offence shall, for all purposes of and incidental to the apprehension, trial, and punishment of such person, and of and incidental to any proceedings and matters preliminary, incidental to, or consequential thereon, and of and incidental to the jurisdiction of any Court or Police or other officer with reference to such offence and to any person accused of such offence, be deemed to have been committed in any place in which the person accused of the offence can be tried for it.

10. When a warrant for the apprehension of a person accused of an offence has been endorsed in pursuance of this Order in the Colony, or where this Order provides for the place of trial of a person accused of an offence, every Court of the Colony shall have the power of issuing a warrant to search for any property alleged to be stolen or to be otherwise unlawfully taken or obtained by such person or otherwise to be the subject of such offence as the Court would have if the property had been stolen or otherwise unlawfully taken or obtained, or the offence had been committed wholly within the jurisdiction of such Court.

SUPPLEMENTAL.

11. An endorsement of a warrant in pursuance of this Order shall be signed by the authority endorsing the same, and shall authorise all or any of the persons named in the endorsement and of the persons to whom the warrant was originally directed, and also every Police Officer to execute the warrant within the Colony, by apprehending the person named in it and bringing him before some Police Court in the Colony, whether the Court named in the endorsement or some other.

For the purpose of this Order every warrant, summons, subpœna, and process, and every endorsement made thereon in pursuance of this Order, shall remain in force, notwithstanding that the person signing the warrant or such endorsement dies or ceases to hold office.

Any endorsement under this Order may be in the form given in the Schedule to this Order.

12. A Police Court may take depositions for the purposes of this Order in the absence of a person accused of an offence in like manner as the same might be taken if such person were present and accused of the offence before the Court.

Depositions (whether taken in the absence of the fugitive or otherwise) and copies thereof, and official certificates of, or judicial documents stating facts, may, if duly authenticated, be received as evidence in proceedings under this Order.

Provided that nothing in this Order shall authorise the reception of any such depositions, copies, certificates, or documents in evidence against a person on his trial for an offence.

Warrants and depositions and copies thereof, and official certificates of, or judicial documents stating facts, shall be deemed duly authenticated for the purposes of this Order if they are authenticated by the signature and official seal of a Judge or Magistrate of the State in which the same are issued, taken, or made. For the purpose of this Order, all Courts in the Colony shall take judicial notice of the signatures and official seals of the Judges and Magistrates of the Federated Malay States.

13. This Order shall apply where an offence is committed before the commencement of this Order in like manner as if such offence had been committed after such commencement.

14. In this Order, unless the context otherwise requires—

The expression "Governor" includes any Officer administering the Government of the Colony.

The expression "Police Officer" includes all grades of persons employed for duties in the Police Force of the Colony.

The expression "the Colony" means the Colony of the Straits Settlements.

16. The Orders in Council dated respectively the 19th day of August, 1889, and the 26th day of September, 1901, are hereby revoked so far as they apply to the States of Perak, Selangor, Sungei Ujong, Pahang and Negri Sembilan, but not further or otherwise.

Provided always that this revocation shall not affect—

- (c.) Any legal proceeding or remedy in respect of any such warrant or obligation, and any such warrant may be executed, and any such legal proceeding and remedy may be carried on as if this Order had not been made.

report to be
sent to Har-

result to owner,
agent or
consignee.

25. Upon the arrival of a vessel carrying petroleum, or as soon thereafter as possible, the Harbour Master shall send to the Inspector and Testing Officer a printed notice duly filled in, giving the name of the vessel, quantity and designation of the petroleum on board, the name of the owner, agent or consignee and any other information required to enable the Inspector to inspect the petroleum. Upon the receipt of such notice from the Harbour Master, or as soon thereafter as possible, the Inspector and Testing Officer shall board the vessel and, unless an inspection is dispensed with under the last preceding rule, take samples to be tested in the manner subsequently described. 27. One sample shall be taken by the Inspector and Testing Officer from every ten thousand tins or five thousand cases of petroleum if carried in tins containing four imperial gallons and cases containing two such tins or eight imperial gallons, or from every forty thousand gallons of the petroleum if carried in any vessel other than tins and cases and other than petroleum in bulk. Every part of five thousand cases or forty thousand gallons in excess of the first five thousand cases or four thousand gallons or in excess of simple multiples thereof shall not be counted if such part is less than one thousand cases (eight thousand gallons) and shall be counted as equivalent to an additional five thousand cases (forty thousand gallons) if it is one thousand cases or more.

Separate samples from different brands of oil.

29. Of petroleum in bulk one sample shall be taken from each separate receptacle or tank. In doubtful cases an analysis of the residue shall be made. If after inspection, with or without analysis, an Inspector in his report to the Harbour Master declares the petroleum residue to have a flashing point higher than 150 degrees Fahrenheit, the provisions of the "Petroleum Enactment, 1897," shall not further apply to such residue.

Petroleum residue.

31. All petroleum other than residue shall be tested by determination of the flashing point in the "Abel-Pensky Petroleum Tester" described in part A and according to the directions for applying the test given in part B of the schedule appended to these rules.

The cup is provided with a close-fitting overlapping cover made of brass (22 B.W.G.) which carries the thermometer and test-lamp. The latter is suspended from two supports

from the side by means of trunnions, upon which it may be made to oscillate; it is provided with a spout the mouth of which is $\frac{1}{16}$ " in diameter. The socket which is to hold the thermometer is fixed at such an angle and its length is so adjusted that the bulb of the thermometer when inserted to its full depth shall be $1\frac{1}{2}$ " below the centre of the lid.

The cover is provided with three quadrilateral holes, one in the centre $\frac{5}{16}$ " by $\frac{4}{16}$ " and two smaller ones $\frac{3}{16}$ " by $\frac{2}{16}$ " close to the sides and opposite each other. The three holes may be closed and uncovered by means of a slide and having perforations corresponding to those on the lid.

The slide is moved by a clock-work mechanism in such a way that the poles are uncovered and the test flame applied during three seconds and during the fourth second closed and the test flame removed.

Upon the cover is fixed a white bead the diameter of which represents the size of the test flame to be used.

The bath or heated vessel consists of two flat-bottomed copper cylinders (24 B.W.G.), an inner one of 3" diameter and $2\frac{1}{2}$ " height, and an outer one of $5\frac{1}{2}$ " diameter and $\frac{3}{4}$ " height; they are soldered to a circular copper plate (20 B.W.G.), perforated in the centre, which forms the top of the bath in such a manner as to enclose the space between the top cylinders, but leaving access to the inner cylinder. The top of the bath projects both outwards and inwards about $\frac{3}{8}$ ", that is its diameter is about $\frac{6}{8}$ " greater than that of the body of the bath, while the diameter of the circular opening in the centre is about the same amount less than that of the inner copper cylinder. To the inner projection of the top is fastened by six small screws a flat ring of ebonite, the screws being sunk below the surface of the ebonite to avoid metallic contact between the bath and the oil-cup. The exact distance between the sides and bottom of the bath of the oil lamp is $1\frac{1}{2}$ ". A split socket similar to that on the cover of the oil-cup, but set at a right angle, allows a thermometer to be inserted into the space between the two cylinders. The bath is further provided with a funnel, an overflow pipe and two loop handles.

The bath rests upon a cast-iron tripod stand, to the ring of which is attached a copper cylinder or jacket (24 B.W.G.), flanged at the top and of such dimensions that the bath, while firmly resting on the iron ring, just touches with its projecting top the inward-turned flange. The diameter of this outer jacket is $6\frac{1}{2}$ ". One of the three legs of the stand serves as a support for the spirit lamp, attached to it by means of a small swing bracket. The distance of the wick-holder from the bottom of the bath is 1".

Two thermometers are provided with the apparatus, the one for ascertaining the temperature of the bath, the other for determining the flashing point. The thermometer for ascertaining the temperature of the water has a long bulb and a space at the top. Its range is from about 90° to 190° Fahrenheit. It is fitted with a metal collar fitting the socket and the part of the tube below the top of the metal collar should have a length of about $3\frac{1}{2}$ " measured to the end of the bulb. The thermometer for ascertaining the temperature of the oil is fitted with a collar in a similar manner to the one described. It has a round bulb, a space at the top, and ranges from about 55° Fahrenheit to 150° Fahrenheit; it measures from the top of the metal collar to bulb $2\frac{1}{2}$ ".

B.—DIRECTIONS FOR APPLYING THE TEST.

1. The test apparatus is to be placed for use in a position where it is not exposed to currents of air or draughts.
2. The heating vessel or water-bath is filled by pouring water into the funnel until it begins to flow out at the spout of the vessel. The temperature of the water at the commencement of the test is to be 130° Fahrenheit, and this is attained in the first instance either by mixing hot and cold water in the bath, or in a vessel from which the bath is filled, until the thermometer which is provided for testing the temperature of the water gives the proper indication: or by heating the water with the spirit lamp (which is attached to the stand of the apparatus) until the required temperature is indicated.

If the water has been heated too highly, it is easily reduced to 130° by pouring in cold water little by little (to replace a portion of the warm water) until the thermometer gives the proper reading.

When a test has been completed, this water-bath is again raised to 130° by placing the lamp underneath, and the result is readily obtained while the petroleum cup is being emptied, cooled and re-filled with a fresh sample to be tested. The lamp is then turned on its swivel from under the apparatus and the next test is proceeded with.

3. The test lamp is prepared for use by fitting it with a piece of plaited candle-wick and filling it with colza or rape oil up to the lower edge of the opening of the spout or wick-tube. The lamp is trimmed so that when lighted it gives a flame of about 0.15 of an inch diameter and this size of flame, which is represented by the projecting white bead on the cover of the oil-cup, is readily maintained by simple manipulation from time to time with a small wire trimmer.

When gas is available it may be conveniently used in place of the little oil lamp and for this purpose a test flame arrangement for use with gas may be substituted for the lamp.

4. The bath having been raised to the proper temperature the oil to be tested is introduced into the petroleum cup, being poured in slowly until the level of the liquid just reaches the point of the gauge which is fixed in the cup.

The samples to be tested should be cooled down (to about 60°) by immersing the bottle containing them in ice or by any other method. The lid of the cup, with the slide closed, is then put on and the cup is put into the bath or heating vessel. The thermometer in the lid of the cup has been adjusted so as to have its bulb just immersed in the liquid and its position is not under any circumstances to be altered. When the cup has been placed in the proper position the scale of the thermometer faces the operator.

5. The rise of the thermometer in the petroleum cup is watched. When the temperature has reached about 64° the operation of testing is to be commenced, the test flame being applied once for every rise of one degree.

No. 239.—RAILWAY LUGGAGE RULES.—

FEDERATED MALAY STATES.

“THE RAILWAYS ENACTMENT, 1903.”

RULES made by the General Manager of the Federated Malay States Government Railways, with the approval of the Resident-General, on the 1st day of October, 1904, under section 25 of “The Railways Enactment, 1903,” to regulate the Conveyance of Luggage on Government Railways.

Definition of luggage.

1. In these Rules “luggage” includes all such articles as a passenger takes with him for his personal use or convenience, according to the habits or wants of the class to which he belongs, with reference to either the immediate necessities or the ultimate purpose of the journey, but does not, except in the case of commercial travellers, include any articles carried for purposes of business, trade or profit.

Free allowance of luggage and charges for excess luggage.

2. Each adult passenger will be allowed free of charge the following weight of personal luggage (not being merchandise):—

1st class	...	...	...	...	100 katis
2nd „	...	...	...	...	60 „
3rd „	...	...	...	...	40 „

Children, paying half fares, will be allowed free of charge half the above quantity of luggage. Any excess over these weights will be charged for as under:—

For distances up to 50 miles	...	...	...	1 cent per kati
„ above 50 „ up to 100 miles	2	„	„	
„ „ 100 „ „ 200	3	„	„	
„ „ 200 „ „ „	4	„	„	

(Exceptions—see Rule 3).

Luggage for commercial travellers.

3. Commercial travellers, holding 1st class tickets, will be allowed free of charge three times the amount of personal luggage allowed to ordinary passengers, and any excess will be charged for at half the ordinary rates. Commercial travellers, holding 1st class tickets, will also be allowed to deposit their personal luggage in a cloak room on payment of half the ordinary fee.

Small articles not to be reckoned in free allowance.

4. In computing the weight of luggage allowed to be conveyed free of charge, articles likely to be required on the journey, such as wraps, pillows, hand bags, dressing cases or luncheon baskets, which are placed in the carriage or compartment by or with the consent of the passenger, will not be reckoned. *Such articles will be regarded as being in the charge of and at the sole risk of the passenger and will not be registered.*

Luggage charges to be prepaid.

5. Luggage charges shall be prepaid, but the Railway Administration reserves the right to collect the whole or any part of the amount due for excess luggage at destination station either before or subsequent to delivery.

Registered luggage.

6. In the case of luggage intended to be registered, each package shall be securely fastened or locked and have attached to it a label fully and legibly describing the passenger's name and destination; all old labels being removed or obliterated.

Each package shall then be delivered to a duly authorised railway official who shall register the same and hand to the passenger luggage

tickets containing a record of the number of packages so registered, and destination. The passenger's ticket must be produced at the time of registration of the luggage.

- (a) The charge for registration will be two cents per package.
- (b) All registered luggage must be conveyed in the guard's van.
- (c) Passengers holding tickets for their registered luggage will receive their packages on arrival at destination on handing over the luggage tickets to the station master or clerk.
- (d) Production of the luggage tickets issued for registered luggage will entitle the Railway Administration to hand over the packages referred to thereon to the bearer of the luggage ticket, and no liability shall be incurred by the Railway Administration if the person producing the luggage ticket should happen not to be the true owner of the luggage.
- (e) When a passenger on arrival at destination cannot produce his luggage tickets, the packages of which he claims to be the owner will only be handed over to him if he proves his ownership to the satisfaction of the station master. He must then sign for receipt of the luggage and also sign a form indemnifying the Railway Administration against all claims of other persons in respect of such luggage. No liability will be accepted under any circumstances by the Railway Administration in respect of luggage for which a proper luggage receipt is not produced.

7. Luggage in large quantities, or luggage to be registered, shall be delivered at the station at least fifteen minutes before the time fixed for the departure of the train by which the passenger wishes to travel. Luggage tendered later than 15 minutes before the time fixed for departure is liable to be detained until the next train.

Luggage to be handed in 15 minutes before train departure.

8. Luggage to be insured shall be delivered at the station at least half an hour before the time fixed for the departure of the train. Parcels rates will be charged on all insured luggage.

Insured luggage.

9. Luggage insufficiently packed, or from which old labels and addresses are not removed, is liable to be refused for conveyance.

Luggage may be refused.

10. No article likely to cause inconvenience to any passenger shall be placed in any carriage or compartment.

Disposal of luggage.

11. No luggage is allowed in carriages or compartments except small packages which can be placed in the parcels racks or under the seat occupied by the owner. The railway servants are required to remove from carriages or compartments all other luggage.

Luggage in carriages or compartments.

12. The Railway Administration does not guarantee immediately transporting excess luggage by mail or passenger trains.

Excess luggage may be delayed.

13. The Railway Administration reserves the right to convey luggage, in the case of lack of space, by a train later than that for which the passenger purchased his ticket. The passenger, however, may under such circumstances change his ticket, free of extra cost, for another, available for the train by which the luggage is conveyed.

Luggage may be delayed if no space in van.

14. The Railway Administration is not responsible for luggage left upon the railway premises for the convenience of passengers.

Luggage on railway premises.

15. Luggage not removed within three hours after arrival will be warehoused at the expense and risk of the owner, and will be delivered to the owner upon payment of storage charges as set forth in Railway Classification and, in the case of registered luggage, upon the delivery of luggage tickets.

Luggage warehoused.

INSPECTOR.

1. The Inspector of Prisons shall visit at least once a year all the Prisons in the State and report on their condition for the information of the Resident.

On the occasion of each visit to any prison he shall personally inspect every prisoner and shall enquire into all complaints and applications which any of the prisoners may make to him.

He shall give special attention to the sick and weakly and to those who are in solitary confinement or punishment cells.

2. He shall be specially careful to see that these Rules and any others which may from time to time be duly made, as also the provisions of the Prisons Enactment, 1904, are strictly carried out; and he shall call attention to any variations of practice as between different prisons in the State, or as between prisons in the State and prisons in any other of the Federated Malay States, which may come under his notice.

3. He shall require from the District Superintendents of Prisons periodical reports upon the prisons under their charge at such intervals as shall be approved by the Resident-General; and he shall submit to the Resident-General annually, before the end of February in each year, a report upon all the prisons of the State for the preceding year, giving statistics in such forms as shall have been duly authorised.

Every District Superintendent will be responsible for seeing that proper records are kept of all such circumstances, and of any correspondence connected with such circumstances, as may affect the interests of particular prisoners, and shall bring the cases to the notice of the Resident after such time, or at such intervals, as may be proper in the several cases.

All petitions or other communications relating to particular prisoners will be referred to the District Superintendent concerned for the purpose of being so recorded. Every District Superintendent shall send to the Resident quarterly returns of all such correspondence so referred to him.

5. The name of every convict under a life sentence, or sentence of fifteen years or more, who has served fifteen years of his sentence, or having served ten years of his sentence has attained, or is believed in the absence of positive evidence to have attained, the age of 60, shall be submitted by the District Superintendent for the consideration of the Resident. In a similar manner the name of every convict who has served seven or ten years shall be submitted for consideration.

PRISONS.

This rule will be communicated to every such convict now in prison and to any other on first reception into prison; but each must be made to distinctly understand that such submission in no way implies that any remission of sentence will be necessarily granted.

Every District Superintendent shall notify to the Inspector of Prisons the case of every prisoner who may fall from time to time within the scope of this rule.

92. Female prisoners shall under no circumstances be attended otherwise than by persons of their own sex, and they shall be prevented from seeing or holding communication with any male prisoner. No Warder or male officer shall enter or be in a room in which females are confined unless in the company of the Matron or female Warder or, if she or they are unavoidably absent, of another male officer.

93. Female prisoners shall be classified, so far as possible, and known prostitutes shall, so far as possible, be kept in a separate ward by themselves.

94. Female prisoners shall be employed only within the prison walls, unless it be otherwise ordered by the Medical Officer.

95. Female prisoners shall be allowed to earn remission of sentence under the mark system.

PRISONS.

96. A child under nine months of age may be admitted with its mother.

When any child has presumably attained the age of nine months the Medical Officer shall report if it is desirable or necessary that the child should be longer retained. Except under special circumstances a child shall not be kept in prison after it has arrived at the age of twelve months.

Should he know of no relations willing or in a position to receive such child, the Superintendent shall refer to the Resident for instructions.

97. Prisoners reckoned under fifteen years of age, whether male or female, shall be kept apart from adults, being, if possible, confined in separate buildings.

Any prisoner who declares himself to be more than fifteen years of age but who, in the opinion of the Superintendent and Medical Officer, should not, having regard to his character, constitution and antecedents, be classed with adult prisoners, shall also be treated as a juvenile offender.

98. Prisoners convicted for the first time shall be kept apart, if possible, from habitual criminals.

99. Prisoners shall be locked up for the night by 5.30 p.m. and shall have risen and be dressed and have their bedding rolled up by 5.30 a.m.

100. The hours of labour for prisoners, within or without the walls of any prison, shall be from 5.45 a.m. to 10.30 a.m., and from 12.30 p.m. to 4.30 p.m. or such other hours as the Resident may direct.

101. No prisoner shall be required to do any labour, except such as may be necessary for keeping the prison premises clean, on Christmas Day, Good Friday, Sunday, the King's Birthday, the first day of the Chinese New Year, Hari Raya, Hari Raya Haji, Tai-pusam, New Year's Day, or any day specially appointed for public thanksgiving.

102. Any Police Officer may at any time visit any prison for the purpose of identifying offenders on production of an order from the Chief Police Officer, or in out-stations from the District Officer.

Officers of the Law with competent warrants or orders for serving writs or other legal process on persons within the prisons shall be admitted into the prisons for that purpose.

HEALTH.

103. The prison and every room and part thereof shall be kept clean and shall, as often as may be necessary, be washed, or whitewashed with lime.

104. The clothes of the prisoners and their bed-clothes shall be aired, changed and washed as often as the Medical Officer may direct.

105. All prisoners not employed in the open air shall have the means of taking such exercise in the open air as the Medical Officer

No. 25 OF 1904.

shall deem necessary for their health, but so that communication shall be prevented as far as the construction of the prison admits.

106. A proper room, or infirmary, shall be set apart for sick prisoners, the separation between males and females, juveniles and adults, being strictly maintained.

107. All prisoners may be vaccinated or re-vaccinated at the discretion of the Medical Officer.

FOOD.

108. The food of the prisoners shall be in accordance with the diet scales set out in the schedule hereto or such other diet scales as may from time to time be approved by the Resident on the recommendation of the Medical Officer. A copy of the scales for the time being in force shall be kept exhibited in some conspicuous part of the prison.

109. Penal diet is to be adopted for all Asiatic prisoners sentenced to rigorous imprisonment for periods of three months and under; it is also to be adopted for three days in each week (Monday, Wednesday and Friday) during the first six months of their sentence for—

- (a) all short-sentenced prisoners with sentences of more than three months;
- (b) all revenue-grade prisoners with sentences of more than three months;
- (c) lower-grade prisoners.

Provided always that the provisions of this rule may be from time to time suspended either wholly or in part for any period not exceeding six months by the written order of the Resident.

110. Care shall be taken that all provisions supplied to the prisoners be of proper quality and weight, and in all cases food shall be given to prisoners before the day's work begins. Scales and standard weights and measures shall be provided for weighing the food supplied to them.

Prisoners shall be allowed, if they wish to do so, to see their rations weighed for themselves.

111. Extra or different rations shall not be given except by order in writing from the Medical Officer or as is hereinafter specially provided.

112. No prisoner, other than persons confined on civil process or prisoners awaiting trial, shall under any pretence whatever be allowed any spirits, wine, beer, tobacco, or other intoxicating or stupefying drink, drug, or matter, except such and in such quantities as may be directed in particular cases by the Medical Officer, by order in writing.

LIQUOR, TOBACCO, LETTERS, ETC.

113. No person shall, except under an order as mentioned in Rule 112, bring, throw or attempt by any means whatever to introduce into any prison any spirituous or fermented liquor or tobacco or intoxicating

PRISONS.

or poisonous drug; nor shall any person, except as provided by rules 140, 175 and 176 convey, or attempt to convey, any letter or other article into or out of any prison or to or from any prisoner.

INSTRUCTION.

114. (i.) Provision shall be made for religious services, for the visits of ministers of religion, and for the instruction of prisoners in reading, writing and arithmetic, during such hours and to such extent as the Resident may direct.

(ii.) A prisoner shall not be allowed to change his religion except in any special case in which the Superintendent is satisfied, after due enquiry, that the change is proposed from conscientious motives and is not sought from any idle whim or caprice, or from a desire to escape from any prison rules.

115. No books or printed papers shall be admitted into any prison to be used by the prisoners, except through the Gaoler and subject to the approval of the Superintendent.

RIGOROUS IMPRISONMENT.

REVENUE-GRADE PRISONERS.

116. Revenue-grade prisoners shall be such as are sentenced to rigorous imprisonment in default of payment of fine.

117. Every such prisoner shall be employed on such labour within or without the prison as the Resident shall direct.

SHORT-SENTENCE PRISONERS.

118. Short-sentence prisoners shall be such as are sentenced to rigorous imprisonment for a period not exceeding one year.

119. Every such prisoner shall, throughout the term of his sentence, undergo hard labour as the Resident may direct and as much as can be endured without injury to health.

LONG-SENTENCE PRISONERS.

120. Long-sentence prisoners shall be such as are sentenced, without option of fine, to rigorous imprisonment for periods exceeding one year. They shall be divided into Lower, Middle and Upper Grades: each grade shall be confined and worked separately and have its own set of wards and Warders.

LOWER GRADE.

121. (i.) The lower grade shall consist of all long-sentence prisoners during the first twelve months of their confinement, and of those who are detained in it, or degraded to it, for misconduct in prison.

(ii.) Prisoners in this grade shall be kept in complete separation as far as possible. They shall work at stone-breaking or such other hard labour as the Resident may direct.

No. 25 OF 1904.

MIDDLE GRADE.

122. The middle grade shall consist of prisoners on promotion from the lower grade or degradation from the upper. They shall be worked at severe industrial labour within or without the prison.

UPPER GRADE.

123. (i.) The upper grade shall consist of prisoners who have earned promotion from the middle grade in the prescribed manner. They shall be employed in association at any trade or occupation not of a severe or irksome nature.

(ii.) A prisoner in the upper grade will, wherever possible, be employed at the trade of which he has some knowledge and which he declares it to be his wish and intention to follow on release. He will be given special technical instruction in such trade and be encouraged to make himself proficient and thus to give himself the chance of employment at it on his release.

(iii.) Prisoners sentenced to two years' imprisonment and under shall not rise to the Upper Grade.

STAR CLASS.

124. A star class may be formed consisting of prisoners who have never been previously convicted or who are not habitually criminal or of corrupt habits. Prisoners in this class shall at all times be kept apart from all prisoners not in this class but shall be removed from it if found to exercise a pernicious influence over other prisoners. They shall wear a red cloth star on the right coat sleeve.

PROMOTION AND DEGRADATION.

125. No prisoner shall be promoted from the lower grade until he has completed the full term of twelve months provided by Rule 121 and until he has passed four consecutive weeks (immediately preceding promotion) without any misconduct involving an entry in the Punishment Book; provided that the complete separation both by day and night shall not be prolonged beyond the term of twelve months.

No prisoner shall be promoted from the middle grade unless he has passed three consecutive months (immediately preceding promotion) without any misconduct involving an entry in the Punishment Book.

126. Subject to the provisions of Rules 85, 87 and 125, prisoners in the middle grade shall be promoted into the upper grade on earning half the additional marks which they are allowed to earn under Rule 130. For the purposes of this Rule a life sentence shall be counted as a sentence of twenty years.

127. Any prisoner may be reduced in grade by the Superintendent for repeated or serious misconduct. A prisoner sentenced to imprisonment for a prison offence shall pass six months of such sentence, or the whole if the sentence does not exceed six months, in the lower grade. A prisoner reduced from the upper or middle to the lower grade can earn no remission of sentence as long as he remains in that grade. Any order by the Superintendent reducing a prisoner in grade shall be in writing and shall state the term for which he is so reduced. Such term shall in no case exceed 6 months.

PRISONS.

THE MARK SYSTEM AND REMISSIONS OF SENTENCE.

128. No remission of sentence shall be granted to short-sentence prisoners. Long-sentence prisoners shall be allowed to earn remission under the mark system, as follows:—

- (a) In the case of prisoners under sentence of two years and under, from the date of their admission to the middle grade;
- (b) In the case of prisoners under sentence of more than two years, from the date of commitment.

Long-sentence prisoners who have already undergone two or more periods of imprisonment of 6 months or upwards are not qualified to earn marks.

Prisoners who have been sentenced a second time to rigorous imprisonment for two years or upwards shall not be allowed the privilege of earning remission of sentence during the first year of such second sentence, but if their conduct and industry during the first year be approved by the Superintendent they shall be allowed the privilege of earning a remission of one-fourth of the remainder of their sentence on the same terms as prisoners under a first sentence.

129. Marks are to be given for industry only: good conduct is absolutely required of every prisoner under penalty of severe punishment. It is only on condition of good and strict obedience to rules that prisoners are allowed to earn marks by their industry and thereby to gain remission of sentence.

130. The following is the principle on which marks are awarded:—

Each day is represented by six marks;

One additional mark per diem is given for industry and application;

Two additional marks per diem for conspicuous industry and application.

131. A debtor and creditor account shall be kept in respect of each long-sentence prisoner entitled to earn marks, in which account he shall be debited with six marks per diem for every day of the unexpired portion of his sentence and shall be credited with the marks earned by him from day to day; and as soon as he has earned the full amount of the marks with which he has been debited in the manner above described he shall be eligible to be recommended to the Resident for a remission of the remaining portion of his sentence. The remission in case of uniform industry and good conduct may amount in the case of males to one-fourth, and in the case of females to one-third of the sentence.

132. At the beginning of each month the Superintendent shall forward to the Resident a list of prisoners who will probably become entitled to a remission of the remainder of their sentences during six weeks from the first day of the following month. Should such list be approved by the Resident it shall be duly authenticated and returned to the Superintendent, who shall be empowered to release the prisoners during the period therein mentioned as soon as they have earned the requisite number of marks.

No. 25 of 1904.

133. The mark account shall be kept and marks shall be awarded by the Warder in charge of the prisoner's grade, but all possible care shall be taken by the Gaoler and the Superintendent to see that they are fairly awarded.

Prisoners should not be kept always in charge of the same subordinate officer in order to avoid the opportunity or the semblance of favouritism or spite. Especially should the awarding of marks be safe-guarded in this respect.

134. The state of each prisoner's mark account and his position in regard to prospective remission of sentence shall be explained to him at least once a month by the Senior Warder of his grade or some prison officer of not inferior rank.

Every prisoner shall in the evening of each day be informed of the number of marks which he has earned during the day.

135. On Sundays and other non-working days each prisoner will be credited with the average amount of marks earned by him in the previous week.

136. Prisoners in hospital, if injured on the public works or in the performance of their duty (without any fault of their own), shall be allowed eight marks per diem. If in hospital for any other cause, they shall be allowed the average number of marks which they have earned in the past week.

Prisoners who have been certified by the Medical Officer to be only capable of light work shall be allowed marks in proportion to their industry on the same scale as other prisoners.

Prisoners in solitary confinement for breaches of prison discipline shall be allowed only six marks a day during the time of such confinement.

137. The maximum number of marks of which a prisoner may be deprived for any one offence is—by the Superintendent, 120; by the Visiting Justices, 200.

138. The marks earned by any prisoner may, on commission of any grave offence, be cancelled in whole or in part by the authority of the Resident, but in no case shall the number of marks cancelled exceed the number previously earned in excess of six per day; and conversely additional marks without limit of numbers may be given for special services by his authority.

139. Marks cancelled in accordance with the two last preceding rules may, on the same authority, be restored to a prisoner in whole or in part in consideration of subsequent meritorious conduct.

PRISONERS' VISITORS AND LETTERS.

140. Prisoners shall be allowed, after the first six months of their imprisonment, once in every three months to receive a visit from friends and to write (and receive) a letter. No other visits or communications

PRISONS.

shall be permitted, except as hereinafter specially provided, without an order in writing from the Resident or Secretary to the Resident.

141. The Gaoler, or a subordinate officer detailed by him, shall be present during the whole of every such interview.

142. The Gaoler shall demand the name and address of any visitor to a prisoner, and when he has any ground of suspicion he may search or cause to be searched male visitors and may direct the female officer to search female visitors, such search not to be in the presence of any prisoner or of another visitor, and in case of any visitor refusing to be searched the Gaoler may deny him or her admission; the grounds of any such proceeding, with the particulars thereof, shall be entered in his Journal. The Matron shall be present during any visit paid to a female prisoner.

143. The Gaoler shall read every letter written by or addressed to any prisoner and, if he shall see cause, shall detain the same and shall at the first opportunity take the orders of the Superintendent thereon, entering the particulars in his Journal. No letter may exceed one sheet of letter paper legibly written and not crossed, or contain anything improper or any news of the day.

144. The Superintendent may permit prisoners to write special letters or to see their friends or legal adviser immediately after conviction, if for the purpose of making arrangements respecting their families or property, or in cases of very serious illness, with the approval of the Medical Officer. Events of importance to prisoners may be communicated to them at any time by authority of the Superintendent.

145. (i.) Not more than three persons shall be admitted to visit a prisoner at one time.

(ii.) The visits of prisoners' friends, etc., shall be limited as follows and shall be recorded in a book to be kept for that purpose:—

In the case of prisoners sentenced to imprisonment for less than two years to fifteen minutes.

In the case of prisoners sentenced to imprisonment for two years and upwards, in the Lower Grade to fifteen minutes, in the Middle Grade to twenty minutes, in the Upper Grade to thirty minutes.

(iii.) No visits shall be made on Sunday except in cases of emergency.

146. The privilege of writing and receiving letters and receiving visits may, at the discretion of the Superintendent, be postponed or forfeited at any time in case of misconduct.

147. All prisoners may petition the Resident once shortly after conviction if they wish, but not afterwards unless there are any special circumstances which the Superintendent may consider should be brought to the notice of the Resident, or unless such prisoner has been over one year in prison and not less than one year has elapsed since the date of his last petition.

No. 25 of 1904.

BEHAVIOUR OF PRISONERS.

148. No prisoner shall under any pretence or at any time speak or make signs to any other prisoner, except with permission when in the upper grade.

149. No prisoner shall hold any sort of communication with any person, except as is expressly allowed by these rules.

150. No prisoner shall have in his possession any book, luxury, stimulant or other article not expressly allowed by the rules of the prison and received from or through the Gaoler.

151. No gaming shall be permitted in any prison, and the Gaoler shall seize and destroy all dice, cards or other instruments of gaming.

FETTERS FOR PREVENTION OF ESCAPE.

152. Fetters shall be employed only as a means of restraint or a preventive to escape, and not as a punishment, and only fetters of a pattern which has been approved by the Inspector of Prisons shall be used. No prisoner shall be kept in fetters without having been previously examined by the Medical Officer.

RESTRAINT OF REFRACTORY PRISONERS.

153. The Gaoler may place a prisoner in irons or other mechanical restraint in cases of urgent necessity, and not otherwise; and the particulars of every such case shall be forthwith entered in the Gaoler's Journal and notice thereof shall be forthwith given to a Magistrate or Visiting Justice, and such restraint by irons or otherwise shall not be continued for more than twenty-four hours without an order in writing from a Magistrate or Visiting Justice specifying the cause thereof and the time during which the prisoner is to be kept in such restraint, which order shall be preserved by the Gaoler as his warrant.

CORPORAL PUNISHMENT.

154. At the infliction of every sentence of corporal punishment the Superintendent and the Medical Officer shall be present. The Medical Officer shall give such directions for preventing injury to health as he may deem necessary, and the Gaoler shall carry such directions into effect. Corporal punishment shall not, except by special order in case of emergency, be inflicted within twenty-four hours of the sentence being awarded, nor shall it be inflicted by instalments.

PUNISHMENT CELLS.

155. Prisoners sentenced to confinement in the punishment cells shall see no one save the officers of the prison in the execution of their duty, a Minister of Religion and the Medical Officer, and shall only have such out-door exercise as the latter certifies is absolutely necessary for health.

156. In cases of extreme violence prisoners sentenced as above may be confined in dark cells for the remainder of the day of sentence.

PRISONS.

157. Confinement in the punishment cells shall not exceed an aggregate of ninety (90) days in a year for any one prisoner, and the execution of any two consecutive sentences shall be separated by a period not shorter than the longer of such sentences.

MEDICAL EXAMINATION OF PRISONERS SENTENCED TO PUNISHMENT.

158. Every prisoner sentenced to punishment shall be sent to the Medical Officer for examination, and a certificate that its infliction is not likely to produce any serious or permanent injury shall be obtained by the Gaoler before it is carried out.

PRISONERS TO BE GIVEN OPPORTUNITY OF DEFENCE BEFORE PUNISHMENT.

159. No prisoner shall be punished until he has had an opportunity of hearing the charges and evidence against him and of making his defence.

REGISTRATION OF OFFENCES AND PUNISHMENTS.

160. The Gaoler shall enter in the Punishment Book a record of every offence punished under the foregoing Rules showing the date and nature of the offence and punishment, the names of the prisoner and of the authority dealing with the case, and any directions given by the Medical Officer.

SIMPLE IMPRISONMENT.

LODGING AND EMPLOYMENT.

161. Prisoners under sentence of simple imprisonment shall not, save in case of absolute necessity, be confined in association with those undergoing rigorous imprisonment. They will not be required to do any work other than that necessary to keep their cells and utensils clean.

162. Every such prisoner whose sentence exceeds twelve months who volunteers to perform hard labour may earn marks by such labour for remission of sentence, and while earning marks shall, except as regards clothing and association, be considered to be, and treated as, an upper grade prisoner. No prisoner who has commenced to work and given it up without reasonable excuse shall be allowed to earn marks for the period spent at hard labour, and no marks shall be allowed for a fraction of a week.

SENTENCE NOT REMISSIBLE.

163. No part of the sentence of such prisoners will be remissible save to those who volunteer to labour, and earn marks thereby, as provided in the last preceding rule.

BOOKS AND WRITING MATERIALS.

164. Such prisoners may have the use of books and writing materials received or procured through the Gaoler with the permis-

No. 25 of 1904.

sion and approval of the Superintendent as far as is consistent with the proper discipline of the prison.

CLOTHING AND BEDDING.

165. Every such prisoner shall be provided with, and wear, a prison dress of pattern different to that worn by prisoners undergoing rigorous imprisonment, and without any conspicuous mark or brand. Bedding shall be provided for all such prisoners.

DEBTORS.

166. A prisoner for debt shall be permitted to supply his own food on giving due notice beforehand, but shall not be permitted to receive any prison allowance of food at any meal for which he receives or procures food at his own expense.

167. Articles of food for prisoners for debt shall be received only at such hours as may be fixed from time to time, and shall be inspected by the officers of the prison, and shall be subject to such restrictions as may be necessary to prevent luxury or waste.

168. A prisoner for debt shall not during any period of twenty-four hours receive or purchase more than one pint of malt liquor or cider or, if an adult, half a pint of wine.

169. A prisoner for debt shall be allowed to wear his own clothes if sufficient and fit for use. He may procure for himself, or receive at proper hours, such articles of clothing as the Superintendent may approve.

170. When a prisoner for debt is allowed to wear his own clothing in prison the Medical Officer may, for the purpose of preventing the introduction or spread of infectious disease, order that the clothing be disinfected as speedily as possible, and during the process of disinfection the prisoner may be allowed to wear the prison clothing.

PERSONS DETAINED FOR SAFE CUSTODY.

LODGING AND EMPLOYMENT.

171. Debtors, prisoners awaiting trial, and all others committed for safe custody only, shall in no case be confined in association with convicted criminals.

172. They will not be required to do any labour other than what is required to keep their rooms, furniture and utensils clean; and those who can afford it may be permitted to make such arrangements for having this necessary work done for them as are consistent with the discipline of the prison.

173. The Superintendent may modify the routine of the prison in regard to any prisoner awaiting trial, so far as to dispense with any practice which, in the Superintendent's opinion, is clearly unnecessary or unsuitable in the case of that particular prisoner.

174. When it is practicable and safe, employment shall be provided for such prisoners, in case they desire it. An account of the value

PRISONS.

of the daily labour of those accepting it shall be kept by the Gaoler, and a sum equal to such value, less the cost of his maintenance shall be paid to each man upon his discharge. Further employment may be refused to any prisoner in case of misconduct during employment.

VISITS, LETTERS AND LUXURIES.

175. Such prisoners may receive or purchase such luxuries, in the way of books and papers, clothing, food and stimulants, as are consistent with good order and the discipline of the prison: but all such articles must be received or bought through the Gaoler.

176. Such prisoners (except those detained with a view to banishment) shall have all reasonable facilities for seeing their friends and legal advisers, and for sending and receiving letters, consistent with the discipline of the prison.

Prisoners detained with a view to banishment shall be allowed to see no person except on the written order of the Resident.

177. Any of the foregoing privileges may be withdrawn or curtailed in case of abuse, at the discretion of the Gaoler, who will make an entry of the particulars of each such case in his journal; but such prisoners shall not be subject to punishment for breaches of discipline, save by Visiting Justices.

CLOTHING AND BEDDING.

178. Such prisoners will be permitted to wear their own clothes; any one not having proper clothing of his own shall be provided with a prison dress similar to that worn by persons undergoing simple imprisonment. Bedding shall be provided for all such prisoners.

FOOD.

179. Such prisoners shall receive the same scale of diet as those undergoing simple imprisonment, in case they do not elect to provide their own food.

PRISONERS CONDEMNED TO DEATH.

LODGING.

180. Every prisoner condemned to death shall be thoroughly searched, and any articles shall be removed from him which it is considered dangerous or inexpedient to leave in his possession. He shall be confined apart from all other prisoners and be under the constant supervision of an officer of the prison both by day and night. The cell or room in which such prisoner is confined shall, on every such occasion, be previously examined by the Gaoler, who is to satisfy himself of its fitness and safety and make an entry of his having done so in his Journal.

FOOD, CLOTHING AND BEDDING.

181. Such prisoners shall be provided with the same kind of clothing, food and bedding as persons undergoing simple imprisonment, and shall be provided with such other articles as may be approved by the Superintendent.

No. 25 OF 1904.

VISITORS.

182. No person, except the Medical Officer and other prison officers in the course of duty and, if required by the prisoner, a Minister of the persuasion to which he belongs, shall have access to such prisoner without a written order from the Resident, and he shall not be compelled to receive any such visitor unless it is so provided in the order of admission. The Gaoler, or a Warder detailed by him, shall be present during the whole of every such interview.

EXECUTIONS.

183. Executions shall be attended by the Superintendent, the Medical Officer and the Gaoler of the prison.

ABSENT:

The Acting Secretary to Resident, W. G. MAXWELL, Esq.

The Orang Kaya Temenggong, WAN HASSAN.

The Datoh Muda, ABDUL WAHAB.

The Council assembles at 11 a.m.

1. The Resident submits to the Council an Enactment to repeal certain Obsolete Laws, explaining that the measures included in the schedule thereto have long since had their effect and are of no further utility. The Enactment is passed, becoming No. 23 of 1904.

2. An Enactment to secure to Government debts priority of payment over other debts is read and explained by the Resident. The Council expresses its concurrence and the Enactment is passed, becoming No. 24 of 1904.

3. An Enactment to amend the law relating to Prisons and to the custody of Prisoners is submitted by the Resident, with full explanation of the reasons which render the proposed amendments desirable. The Council agrees that the law will be improved by the adoption of the suggested alterations, and the Enactment is passed, becoming No. 25 of 1904.

4. The Resident submits for consideration an Enactment to further amend "The Criminal Procedure Code, 1902," by extending the time within which appeal may be made to the Court of the Senior Magistrate, and by providing certain facilities for the employment of Council by complainants. The Council accepts the amendments, and the Enactment is passed, becoming No. 26 of 1904.

5. The notes of evidence taken by the Court of the Judicial Commissioner in the case of Ponnau, convicted of murder, are read by the Resident to the Council.

The Council unanimously endorses the opinion expressed by the Judicial Commissioner, and confirms the sentence of death.

6. On hearing the evidence taken by the Court of the Judicial Commissioner in the case of Ismail, convicted of murder and sentenced to death, and on considering the petition made by the father of the prisoner, the Council decides to commute the sentence of death passed by the Court to that of twenty years penal servitude.

7. The Council takes into consideration a representation made on behalf of the widow and children of the ex-Datoh Laksamana of Perak, who recently died in Singapore, leaving his family in very poor circumstances.

Upon the motion of His Highness the Sultan it is resolved to recommend that the following allowances be granted from State Funds :—

To the widow, \$15 per mensem, so long as she remains unmarried.

To the son, \$8 per mensem, until he attains the age of twenty-one.

To the three daughters, \$8 per mensem each, until such time as they shall respectively marry.

The allowance in each case to commence from November 1st, 1904.

8. The Council decides to appoint Alang Ismail bin Datoh Sagor to the vacant post of Assistant Penghulu of Selinsing on six months' probation.

9. On the application of the District Officer, New Territory, and of the Datoh Sri Adika Raja, it is resolved to recommend the appointment of an Assistant Penghulu to administer the valley of the Sungei Sengor, a fertile district of much promise which is out of the reach of the Penghulu of Temengor.

It is also decided that the appointment, if created, should be given to one Dalman, a respected inhabitant of the district, who is strongly

recommended by both the above-named officers. The appointment to be on six months' probation at a salary of \$10 per mensem.

10. A letter is read from Raja Bila, Penghulu of Papan, asking that his son may be appointed to be his Assistant. Decided that no assistance can be given to him.

11. The Council considers a report from the Raja Muda and the District Officer, Lower Perak, to whom was submitted at the last meeting the request of the foreign settlers in the mukim of Utan Melintang for the appointment of a Ketuah. It is suggested that Haji Serat be appointed Ketuah for the Javanese, and Tunku Si Manik for the other foreign settlers, the latter also to perform the duties of Naib Kathi.

Haji Serat to receive \$8 per mensem and Tunku Si Manik \$10 per mensem.

The Raja Muda explains to the Council the rapid increase of foreign Malays in the mukim and the necessity for rendering the assistance requested.

It is decided to recommend the appointment of each of the persons named, for the duties and on the salaries above mentioned, on six months' probation.

12. At the request of the District Officer, Lower Perak, and on the recommendation of the Raja Muda, it is decided that the Assistant Penghulu of the mukims of Sungei Durian and Kota Stia shall change places, that being the wish of all parties concerned. The salaries of both appointments are the same, and the arrangement is made in order to prevent the occurrence of friction in the mukim of Sungei Durian.

13. On the recommendation of the Resident, and after examination of a plan produced by him, it is decided that an area of 400 acres or thereabouts, including the public gardens, lake, and Circular road at Taiping, together with certain lands adjacent thereto, shall be created a reserve under Section 18 of Enactment No. 15 of 1904.

14. An application by Sultan Chenaga to convert into mining land a block of agricultural land held by him in the mukim of Kota Lama Kanan, is refused, the Council being of opinion that mining operations would be harmful to padi land further down stream.

15. Consideration of the application of Chung On Siew to convert into mining land a block of agricultural land owned by him, adjoining the Railway line at Sungei Siput, is postponed to enable the Resident to obtain the opinion of the Warden as to the value of the land for mining purposes.

16. The application of Kulop Lembang to convert into mining land 20 acres of agricultural land at Tambun, Ulu Kinta, is approved at a premium of \$10 per acre.

17. The Council approves the conversion into mining land of a block of agricultural land, $4\frac{1}{2}$ acres in area, situated in the mukim of Kota Lama Kanan, being the property of Kulup Abubakar and Alang Abdulrahman, at a premium of \$20 per acre.

18. His Highness the Sultan brings to the notice of the Council that by the recent death of the late Toh Muda Daim, who held a supervising appointment over the mukim of Kota Lama Kiri, on a salary of \$40 per mensem, the Penghulu has been left without assistance, and cannot do efficiently all that is required of him without some aid. It is resolved to recommend the appointment of an Assistant Penghulu on a salary of \$180 per annum.

19. His Highness the Sultan reports to the Council with deep regret the recent death of Raja Haji Yahaya, the Chief Kathi, and informs the members that he is engaged in making the necessary enquiries with the view of selecting a successor.

20. At the conclusion of business the Resident informs the Council of his impending departure from the State, when His Highness the Sultan and other members are pleased to express their satisfaction with the administration of the State during the past twelve months.

The Council adjourns *sine die*.

1. This Enactment may be cited as “The Straits Settlements Offenders Enactment, 1904,” and shall come into force on a day to be fixed by the Resident by notification in the *Gazette*. Short title and commencement.

2. On the commencement of this Enactment section 2 of “The Criminal Fugitives Surrender Enactment, 1903,” shall be amended by substituting for the interpretation of “fugitive criminal” therein contained the following interpretation:— Amendment of “The Criminal Fugitives Surrender Enactment, 1903.”

“‘Fugitive criminal’ means any person accused or convicted of a surrender crime committed within either of the Colonies of Ceylon or Hongkong or within any other British Dependency (excepting only the Colony of the Straits Settlements) to which the Resident may, with the approval of the Resident-General, by notification in the *Gazette* apply the provisions of this Enactment, who is or is suspected of being in the State; and for the purposes of so applying the provisions of this Enactment the territory of any Indian prince or chief under the suzerainty of His Britannic Majesty exercised through the Governor-General of India, or through any Governor or other officer subordinate to the Governor-General of India, shall be deemed to be a British Dependency and the Governor-General of India in Council shall be deemed to be the Governor of such territory.”

3. Where in any place in the Colony a warrant has been issued for the apprehension of a person accused of an offence punishable by law in the Colony and such person is or is suspected of being in or on the way to the State, a Magistrate in the State, if satisfied that the warrant was issued by a person having lawful authority to issue the same, may endorse such warrant in manner provided by this Enactment, and the warrant so endorsed shall be a sufficient authority to apprehend within the State the person named in the warrant and bring him before a Magistrate in the State. Backing in the State of warrant issued in the Colony.

4. (i.) The Magistrate before whom a person so apprehended is brought, if satisfied that the warrant was issued by a person having lawful authority to issue the same, and satisfied on oath that the prisoner is the person named or otherwise described in the warrant, may order such prisoner to be returned to the Colony, and for that purpose to be delivered into the custody of the persons to whom the warrant is addressed or any one or more of them, and to be held in custody and to be conveyed by sea or otherwise into the Colony, there to be dealt with according to law. Such order for return may be made by warrant under the hand of the Magistrate making it and may be executed according to the tenor thereof. Return of prisoner apprehended under backed warrant.

No. 29 of 1904.

(ii.) A Magistrate shall, so far as is requisite for the exercise of the powers of this section, have the same powers, including the power to remand and admit to bail a prisoner, as he has in the case of a person apprehended under a warrant issued by him.

Backing in the State of summons, etc., to witness issued in the Colony.

5. (i.) Where a person required to give evidence on behalf of the prosecutor or defendant on a charge of an offence punishable by law in the Colony is or is suspected of being in or on his way to the State and a Judge, Magistrate or other officer in the Colony who would have lawful authority to issue a summons requiring the attendance of such witness if such witness were within his jurisdiction has issued a summons for the attendance of such witness, a Magistrate in the State if satisfied that the summons was issued by a Judge, Magistrate or officer having lawful authority as aforesaid may endorse the summons with his name, and the witness on service of the summons and on payment or tender of a reasonable amount for his expenses shall obey the summons, and in default shall be liable to be tried and punished in the State and shall be liable to the punishment imposed by law for the failure of a witness to obey such a summons.

(ii.) The expression "summons" in this section includes any subpoena or other process for requiring the attendance of a witness.

Provisional warrant.

6. A Magistrate in the State, before the endorsement of a warrant for the apprehension of any person in pursuance of this Enactment, may issue a provisional warrant for the apprehension of that person on such information and under such circumstances as would in his opinion justify the issue of a warrant if the offence of which such person is accused were an offence punishable by the law of the State and had been committed within his jurisdiction, and such warrant may be executed within the State. Provided that a person arrested under such provisional warrant shall be discharged unless the original warrant is produced and endorsed within such reasonable time as may under the circumstances seem requisite.

Discharge of prisoner not conveyed out of the State within one month from date of warrant.

7. (i.) If a prisoner in the State whose return is authorised in pursuance of this Enactment is not conveyed out of the State within one month after the date of the warrant ordering his return, a Magistrate, upon application by or on behalf of the prisoner and upon proof that reasonable notice of the intention to make such application has been given to the person holding the warrant and to the Chief Police Officer, may, unless sufficient cause is shown to the Court to the contrary, order such prisoner to be discharged out of custody.

him to be sent back free of cost and with as little delay as possible to that part of the Colony in or on the way to which he was apprehended.

9. (i.) When the return of a prisoner is sought or ordered under this Enactment and it is made to appear to a Magistrate that by reason of the trivial nature of the case it would, having regard to the distance, to the facilities of communication and to all the circumstances of the case, be unjust or oppressive or too severe a punishment to return the prisoner either at all or until the expiration of a certain period, the Court may discharge the prisoner either absolutely or on bail, or order that he shall not be returned until after the expiration of the period named in the order, or may make such order in the premises as to the Court seems just.

Refusal to return prisoner when offence too trivial.

(ii.) 10. When a warrant for the apprehension of a person accused of an offence has been endorsed in pursuance of this Enactment in the State, or where this Enactment provides for the place of trial of a person accused of an offence, every Court of the State shall have the same power of issuing a warrant to search for any property alleged to be stolen or to be otherwise unlawfully taken or obtained by such person or otherwise to be the subject of such offence as the Court would have if the property had been stolen or otherwise unlawfully taken or obtained or the offence had been committed wholly within the jurisdiction of such Court.

Issue of search warrant.

11. (i.) An endorsement of a warrant in pursuance of this Enactment shall be signed by the authority endorsing the same and shall authorise all or any of the persons named in the endorsement and of the persons to whom the warrant was originally directed, and also every police officer, to execute the warrant within the State by apprehending the person named in it and bringing him before some Court in the State, whether the Court named in the endorsement or some other.

Endorsement warrant.

(ii.) For the purposes of this Enactment every warrant, summons, subpoena and process and every endorsement made thereon in pursuance of this Enactment shall remain in force notwithstanding that the person signing the warrant or such endorsement dies or ceases to hold office.

(iii.) Any endorsement under this Enactment may be substantially in the form given in the schedule.

12. (i.) A Court may take depositions for the purposes of this Enactment in the absence of a person accused of an offence in like manner as the same might be taken if such person were present and accused of the offence before the Court.

Depositions, etc., to be evidence. Authentication.

(ii.) Depositions (whether taken in the absence of the accused or otherwise) and copies thereof and official certificates of or judicial documents stating facts may, if duly authenticated, be received in evidence in proceedings under this Enactment. Provided that nothing in this Enactment shall authorise the reception of any such

HONGKONG, STRAITS SETTLEMENTS, AND
FEDERATED MALAY STATES POLICE PROBATIONERS.

No. 320.—The following regulations relating to Hongkong, Straits Settlements, and Federated Malay States Police Probationers are published for general information.

EASTERN No. 85 (34705 04.)

1. With the view of supplying the Police Service of Hongkong, the Straits Settlements, and the Federated Malay States, Probationerships have been established, the holders of which will be required to serve in either of the above-mentioned Colonies or in the States, and to devote themselves for a certain time after their arrival in the East to learning one or more native languages. Probationers appointed to this service will in the first instance be allotted to the States or to one or other of the Colonies, and will, as a rule, look for promotion only in the States or in that Colony, but it must be

distinctly understood that they will be liable to be transferred at any time from one to another, at the discretion of the Secretary of State, without being given compensation for any special local privileges or allowances.

2. The Probationers will be selected by competitive examination held by the Civil Service Commissioners.

The examination for these appointments will, as a rule, be held in the month of *June* or *July*, in those years in which vacancies have occurred, simultaneously with the examination for the Indian Police Force in the same subjects and the same papers. Candidates may compete for both the Indian and Colonial Services at the same time.

Applications for admission to the combined examination should be addressed to the Secretary, Judicial and Public Department, India Office, in the manner laid down in the Regulations for Admission to the Indian Police Force issued by that Department. These regulations also contain full information as to the subjects for examination.

Applications for admission to the examination of candidates for the Police Forces of the Colonies and Federated Malay States only should be addressed to the Eastern Department of the Colonial Office. They must reach that Department not later than the 1st of May.

3. Candidates must be above 19 and under 21 years of age* on the first day of June in the year in which the examination is held. They must be unmarried, and if they marry before reaching the East they will forfeit their appointment.

Every Candidate must be a British subject of European descent, and at the time of his birth his father must have been a British subject, either natural-born or naturalised in the United Kingdom.† He must, if called upon to do so, satisfy the Civil Service Commissioners that he is duly qualified in respect of age and character. He must be of sound constitution, possessed of good sight and physically qualified for service in a tropical climate. Successful candidates will be required to undergo a strict medical examination by the Medical Board appointed to examine the successful candidates for Indian Police appointments, to test these points. A fee of two guineas will be charged in respect of this examination.

4. The successful Candidates will be allotted, as and when opportunity offers, to one of the Colonies or to the States upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration, and the Secretary of State will retain full discretion to allot as he thinks fit.

5. The selected Candidates will be expected to leave England about a month after the results of the examination are announced. A free passage to the Colony or State will be provided for the Probationer, subject to an undertaking to refund the cost of his passage in the event of his relinquishing the appointment within three years for any other reason than mental or physical infirmity.

* The limit of age is extended in the case of candidates who have performed military service in South Africa by the period of such service, not exceeding 18 months. Candidates who become eligible under this concession must furnish an official certificate of the length and nature of their service.

† In the case of persons who enter both for the Indian and for the Colonial Services the decision of the Secretary of State for India in Council as to whether a candidate satisfies this condition will be final. No candidate who has been rejected as not qualified in this respect for the Indian Service will be accepted as a candidate for the Colonial Forces. In the case of persons competing only for admission to the Colonial Forces the decision of the Secretary of State for the Colonies will be final.

6. Each Probationer will receive salary at the rate of £225 per annum, half salary to commence from the day of leaving England, and full salary from the date of his arrival in the Colony or State to which he may be sent.

7. Every Probationer on arrival in the Colony or State to which he may be sent will be subject to any regulations as to Probationers (not inconsistent with this paper) which may from time to time be made by the local Government, including regulations as to examinations in native languages, etc. A Probationer who has passed such examinations will be paid at the rate of £300 per annum until he obtains a substantive appointment. Should a Probationer remain three years, after passing his examinations, without obtaining a substantive appointment, his salary will be increased to £350.

8. Any Probationer who may fail to pass the prescribed examinations within four years, or be found unfit for Police duties, will be liable to removal from the service. Any Probationer so removed from the service will be granted a free passage to England, provided that he utilises such passage within three months from the date of his removal.

9. Subject to the necessities of the service, leave of absence on half salary may be granted after a period of six years' resident service without any special grounds. It may be given before the expiration of that period in cases of serious indisposition, or of urgent private affairs. In the absence of special grounds, the leave in such case must not exceed one-sixth of the officer's resident service; on special grounds it may exceed that period by six months. In addition to the above, vacation leave on full pay may be granted, if no inconvenience or expense is caused thereby, not exceeding three months in any two years.

10. The present rule as to superannuation is that in the case of ill health an officer may be allowed to retire on a pension after ten full years' resident service; otherwise he must have attained the age of 55. For ten full years' resident service fifteen-sixtieths of the average annual salary of the retiring officer's fixed appointments for the three years prior to retirement may be awarded, to which one-sixtieth may be added for each additional year's service; but no addition will be made in respect of any service beyond 35 years. For pension purposes absence on vacation leave counts as full service, and leave on half pay as half service.

11. A deduction of four per cent. will be made from the salaries of all Probationers as a contribution to one or other of the Widows' and Orphans' Pension Funds of the two Colonies or of the Federated Malay States, from the date at which they qualify by passing the above-mentioned examinations.

12. The currency of Hongkong, the Straits Settlements, and the Federated Malay States is a silver dollar currency, and for purposes of local payment the sterling salaries referred to in paragraphs 6, 7 and 13 of this print will be converted into dollars at a rate to be fixed by the Government, and based upon the average exchange value of the dollar during the month ending on the fifteenth of the month for which salary is to be paid.

13. The Police Service of these Colonies and States has been classified as follows, but no guarantee is given that the numbers and conditions of the appointments or the salaries attached to them will remain unaltered. Moreover, some of the posts included in these classes will not be exclusively confined to officers originally appointed as Probationers.
